# ACTIVE TRACKS

A CORA PHYSICAL THERAPY PROGRAM

---

**Get strong**  
**STAY STRONG**  
with CORA and Coast FA

## Emerging athletes need established care.

Coast Futbol Alliance (FA) is here to expose and enrich our kids' greatest talent. CORA Physical Therapy is here to make sure that nothing stands in their way.

The partnership between Coast FA and CORA ensures that student athletes remain healthy and strong as they hone their skills. Coast FA trusts our nationally certified and state-licensed athletic trainers (ATCs) who can be found on the field at practices, games and tournaments, and in our cutting-edge facilities around Myrtle Beach.

## Why CORA?

Hosting CORA's trusted ATCs on-site means less time out: assessments are immediate and treatment plan implementation is more vigilant. When necessary, it also ensures high-quality immediate and emergency care.

Off-site at any of our many area locations, CORA's highly qualified ATCs and physical therapists (PTs) offer Coast FA participants complimentary injury screens, progressive treatment programs and access to the area's most reputable orthopedists, should a referral be necessary.

**Visit [coraphysicaltherapy.com](http://coraphysicaltherapy.com) to find the CORA clinic nearest you.**

## CORA ATHLETES:

- Miss fewer practices
- Play more games
- Increase compliance for return-to-play plans
- Alleviate parental concerns
- Save money in healthcare costs

# On the field and in your neighborhood

ActiveTracks brings CORA to the community with sideline athletic support and on-site PT, wellness and fitness training.
